DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species A: the polymer film is directly extruded onto the steel sheet

Species B: the polymer film is formed before being applied to the steel sheet

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. The claims are deemed to correspond to the species listed above in the following manner:

Species A: claim 7

Species B: claim 8, 11 and 12

The following claim(s) are generic: claims 1-6, 9-10 and 13-14.

Art Unit: 1791

3. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons:

The common technical feature (a method for fabricating a composite laminate part as described in claim 1) and one of the species (the polymer film is formed before being applied to the steel sheet) is old in the art (see the nonfinal office action mailed 08/31/2007 and [0004] of the machine translation of Kenji et al., which was provided with the last office action).
